## Paras Hospitals

# Born to Care

A super specialty hospital with the mantra of state-of-the-art facilities and bleeding infrastructure. The hospital was accredited with NABL & NABH in the year 2009

**P**aras Hospitals is Gurgaon's first comprehensive healthcare service provider with an ever growing passion for excellence under one roof. After achieving operational breakeven in very short time; the hospital was accredited with NABL & NABH in the year 2009.

Paras Hospital began its project in the year 2005 and became operational in 2006. It is a 250 bedded multi – specialty hospital that is designed by German architects RRP architects along with RSMS architects led by Manu Malhotra. The endeavor is to become the leading professional healthcare company in super-specialty tertiary care in the region, with a range of products, services and quality consistent with the highest customer expectations at affordable cost.

Paras Hospitals started with its focus on neurosciences, joint replacement and mother and child care. The department of renal sciences was started in November 2006 with six dialysis machines, uroflowmetry etc. Interventional cardiology and oncology with radiotherapy started in early 2008. There are 55 specialty departments including internal medicine, minimal invasive surgery, gynecology and obstetrics, ophthalmology, dermatology

and cosmetic surgery and plastic surgery and a dedicated IVF centre.

After establishing its footprint in Gurgaon, in April 2009, the group has taken a step ahead with opening of Paras Spring Meadows in East of Kailash, Delhi. Paras Spring Meadows mainly focuses on mother and child, cosmetic and skin centre and minimally invasive procedures. The hospital provides surgeries like joint transplants and other basic specialties like general surgery, internal medicine, psychiatry, non intervention cardiology etc. In the second half of 2011, Paras Healthcare announced two projects in Bihar with a 350 bedded hospital at Patna and a 75 bedded facility at Darbhanga. This Endeavour will enable Paras Hospitals to provide state of the art healthcare facilities encompassing cardiac care, neuro surgery and oncology as well all other super specialties to the state of Bihar and making Paras Healthcare single largest private healthcare provider.

The hospital will treat cases of oncology, neurology, nephrology, urology with the facility of kidney transplant and cardiac care, including open heart surgery. This hospital will provide efficient nursing facility and will follow norms of medicare

as laid down by the National Accreditation Board for Hospitals (NABH) and Healthcare Providers and National Accreditation Board for Testing and Calibration Laboratories. This will be the first hospital in the state to have these accreditations

The hospital shall install state of the art linear accelerator with computerised planning facilities and PET scan. The hospital will have all modern diagnostic facilities such as MRI, CT scan and a modern pathological laboratory. For the first time in this region, a hospital will provide a wide range of medical services under one roof in the most professional manner. For the first time in this region, Paras HMRI will provide high-end services such as linear accelerator, PET, MRI, CT in addition to a wide range of medical services under one roof in the most professional manner.

The institution would cater to all sections of society, the stress will be on bringing international standard healthcare at an affordable rate and ensure that patients from the state will not require go to Delhi and other metro cities. A large number of eminent doctors hailing from the state but working abroad have expressed willingness in returning to Bihar and working in the Paras-HMRI Hospital. ☺

The ignition for Bihar's health care transformation has just begun....
